

ModAE application tree diagram

Internal routes, major tabs, and primary navigation connections

ModAE internal site
tree diagram: pages, tabs, and routes

A3 LANDSCAPE
Reference map - September 2026

How to read this map

Solid arrows show the primary route a user takes. Boxes with pale colour are page groups; white boxes are individual pages or tab groups.

Role access: Sales use daily workspace and their own reporting; Approvers and Admins additionally see company controls; Technical users focus on review work.

Customer Portal is separate from internal navigation. The PDF records main page connections, not every modal, field action, or contextual shortcut.
